

# PROMETHEUS NEWSLETTER

Month of September

## ESHIP KICKOFF 2017 EVENT

This month the Prometheus team presented and tabled at the Eship Kickoff 2017 event. We talked to a variety of interested customers and received a variety of feedback. Many signed up for our newsletter and expressed interest in participating in our beta test in the Spring.

## PRODUCT DEVELOPMENT

We are on track to have our beta test in Spring 2018, specifically in January 2018. This month our product development teams redesigned and implemented feedback from our customer interviews. Stay on the lookout for our beta test sign up coming soon!

## NEW ADDITION TO THE TEAM

This month saw the addition of new member Naoki Rufian on the Business and Product Development team. His impact was felt immediately as he worked on data collection from our customer discovery process and processing the information for our software team.

**ASK:** We're currently looking for cheap ways of 3D-Printing
